

Q dental speed

Visionnaire and Dental Speed have a successful partnership to conduct complex selection processes

Dental Speed, a virtual store with more than 30,000 dental materials, felt the need to turn to Tech Recruiters in order to find the best professionals in the technology area for different projects. And so, a successful partnership with Visionnaire began.

Since November 2020, Dental Speed and Visionnaire have had a very successful partnership when it comes to Hunting, that is, the search for the ideal person to fill a highly specialized vacancy, following a careful selection process.

Visionnaire searched and selected the right professionals for Dental Speed's specific needs in different opportunities.

Through our specialized HR team, we fully conducted Recruitment and Selection processes and found the right professionals, using our network and modern technologies for faster and more assertive searches.

Such work included selection of professionals, preliminary interviews, referral to interviews at Dental Speed, monitoring, and procedures for recruitment until the effective hiring.

Visionnaire found the most suitable professionals for Dental Speed in 11 selection processes since the beginning of the partnership between the two companies, even in a scenario of fierce competition, through rigorous recruitment processes in order to guarantee the choice of the perfect professional for every need. The vacancies filled were as follows:

- 1 vacancy for Junior Test Analyst;
- 3 vacancies for Product Owner;
- 1 vacancy for Agile Master;
- 2 vacancies for Senior E-Commerce Front-End Developer;
- 2 vacancies for Test Analyst;
- 2 vacancies for Senior Front-End Developer.
