

Visionnaire found the ideal professionals for highly complex positions at Enaex Britanite

Enaex Britanite, like many other ventures, felt the need to turn to specialists to find the best professionals in the technology area for different projects.

Visionnaire searched and selected the right professionals for the specific needs of Enaex Britanite on different occasions. Through our specialized HR team, we fully conducted each Recruitment and Selection process and find the right professionals, using our network and modern technologies for faster and more assertive searches. The work included selection of professionals, preliminary interviews, referral to interviews at Enaex Britanite, monitoring, and procedures for recruitment until the effective hiring.

Visionnaire found the most suitable professionals for Enaex Britanite in different selection processes, even in a scenario of fierce competition, through rigorous recruitment processes in order to guarantee the choice of the perfect professional for each need. Visionnaire entirely conducted specific selection processes for such opportunities and, with agility, assertiveness and cultural fit, found the ideal professionals, perfectly fitting with the needs and culture of Enaex Britanite.

TESTIMONIAL

Patricia Sanders
HR Analyst at Enaex Brasil

"We did selection processes with Visionnaire and I would like to point out that the company has shown itself to be excellent in delivering professionals in the IT area. All candidates were delivered within the profile and with the quality we were looking for. The professional we hired in the IT area is still with us today and doing an excellent job. I also like the way the R&S team approaches, always with cordiality and a very professional attitude."
