

VISIONAIRE

Success Case

iOS Training Program

Problem

Overcoming the lack of qualified professionals for the development of applications for the iOS platform.

Solution

Visionnaire and Scopus partnered with PUCPR (Pontifical Catholic University of Paraná) to create the iOS Training Program, aimed to train students and professionals in iOS development and offer job opportunities to standout students.

Results

A total of 15 students were qualified to be hired by Visionnaire and Bradesco to develop software solutions for Apple's iOS platform.
