VISIONNAIRE

Success Case

Hunting for jobs in the IT field

Problem

Colacril's need to implement Hunting processes to hire highly specialized professionals in different selection processes.

Solution

Through a Human Resources (HR) sector specialized in Information Technology (IT), Visionnaire was able to fill several highly technical and careful vacancies for Colacril in different selection processes.

Results

Since 2021, Visionnaire has managed to find the most suitable professionals for Colacril in four selection processes, even in a highly competitive environment.
