VISION/AIRE

Success Case

Dental Speed — Hunting for different positions in the IT area

Problem

Need, on the part of Dental Speed, to organize Hunting processes to hire ideal professionals in highly technical and discerning positions.

Solution

Through a Human Resources (HR) area specialized in Information Technology (IT), Visionnaire has already filled several highly technical and discerning vacancies for Dental Speed.

Results

Visionnaire found the most suitable professionals for Dental Speed in many selection processes since the beginning of the partnership between the two companies, even in a scenario of fierce competition, through rigorous recruitment processes in order to guarantee the choice of the perfect professional for every need.
