

VISIONNAIRE

Success Case

Technical Support and Maintenance of
WebPublication© for Internet Portal

Problem

Need to promote the maintenance of the portal created for FIEP in order to keep it relevant (both for users and search engines like Google), safe, intuitive, and reliable.

Solution

Visionnaire provides technical support and maintenance for the WebPublication© tool in order to keep the FIEP portal fully functioning, relevant, intuitive, and stable.

Results

With a dedicated team of experts and the use of Visionnaire's own tool, WebPublication©, the FIEP portal remains relevant, secure, intuitive and reliable, whereas FIEP, in turn, can focus on its primary activities.
