

VISION/AIRE

Success Case

Recruitment and Selection (Hunting)
of Specialized Professionals in the IT Area

Problem

GRPCOM faced significant challenges filling technology positions such as developers, solution architects, and BI analysts due to a shortage of qualified IT professionals.

Solution

Visionnaire supported GRPCOM by managing the entire recruitment process to find highly specialized IT professionals, handling everything from candidate screening to final hiring.

Results

Thanks to Visionnaire's *expertise*, GRPCOM overcame the challenge of hiring highly specialized professionals capable of performing key functions in corporate technological development.
