## **Success Case**

Allocation of professionals specialized  
in C# and Microsoft platform

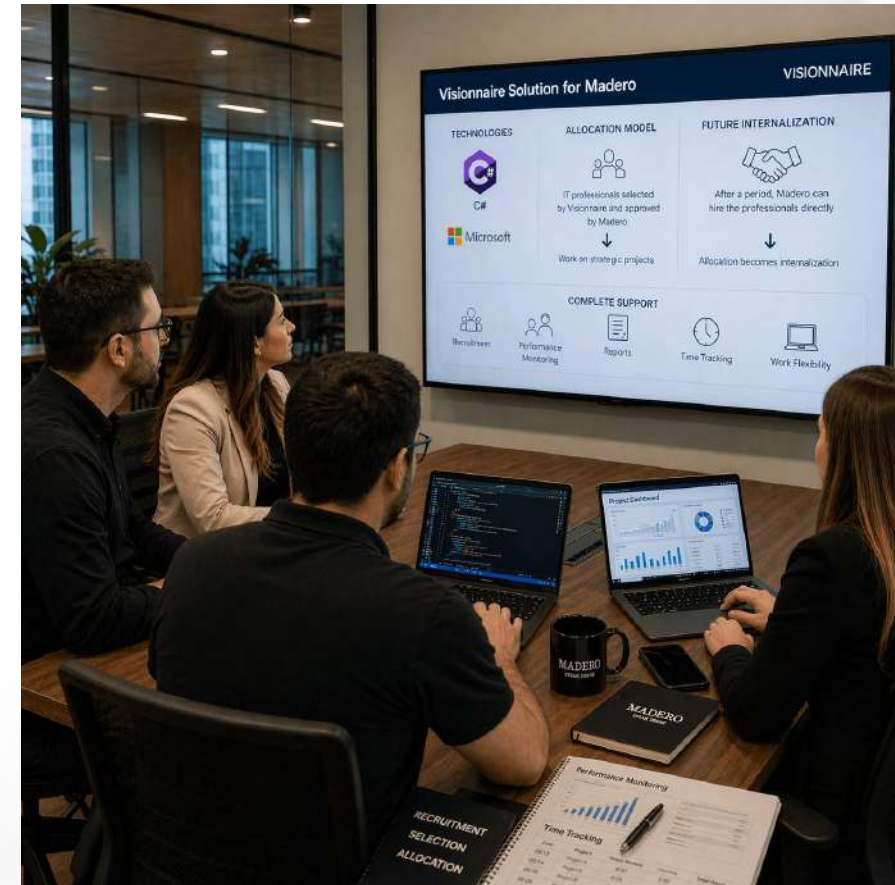

# Problem

Grupo Madero needed the agile formation of teams without compromising technical quality and alignment with the company's culture. Additionally, the company sought a model that went beyond simple outsourcing.

# Solution

Visionnaire, through a flexible model of IT professional allocation with the possibility of internalization, enabled Grupo Madero to quickly rely on qualified specialists to meet technological demands.

# Results

With Visionnaire's knowledge and experience, Grupo Madero was able to rapidly scale its technology team with qualified professionals to meet business demands. It also achieved improvements in quality and productivity.
