## **Success Case**

Guild App Project  
Development

# Problem

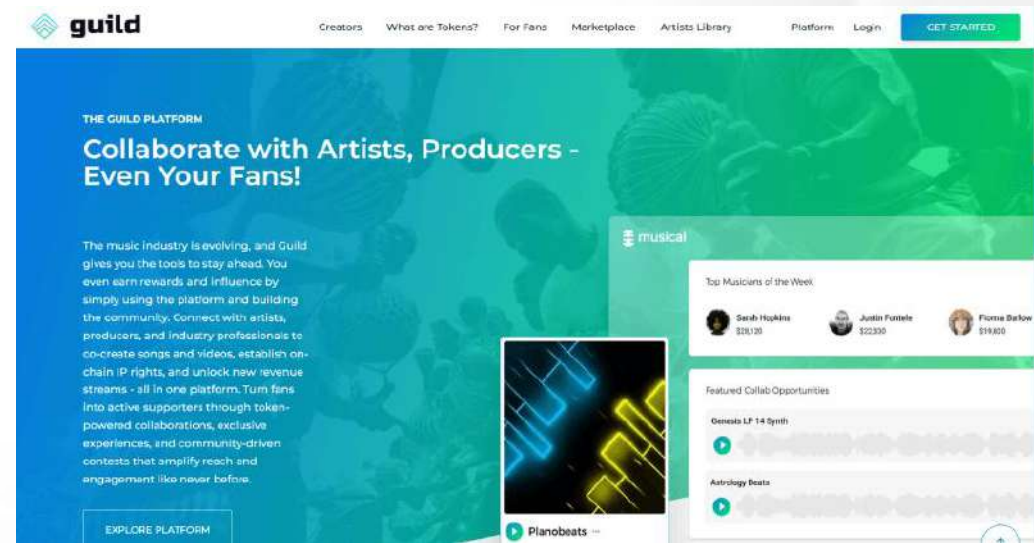

The need to create a website for the Guild initiative (formerly Musical), which allows collaboration between artists, musicians, record companies, studios, schools and many others. Because it is a precursor idea and with the use of new technologies, it was necessary to assemble a properly up-to-date and trained team to create an attractive website prepared for the crypto world.

**guild**

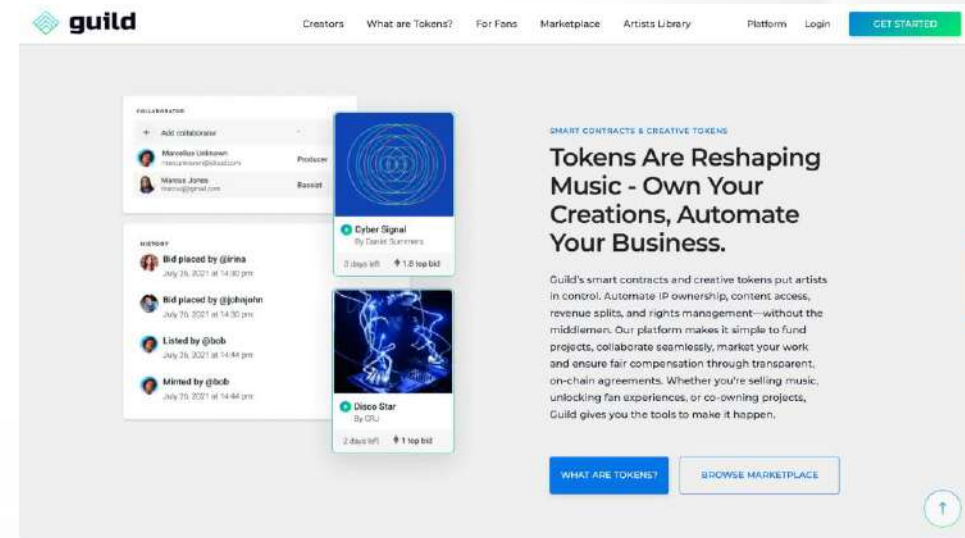

# Solution

Visionnaire quickly assembled a team that developed a website that was attractive, innovative, easy to use and ready for the innovations provided by the concept of Decentralized Finance.

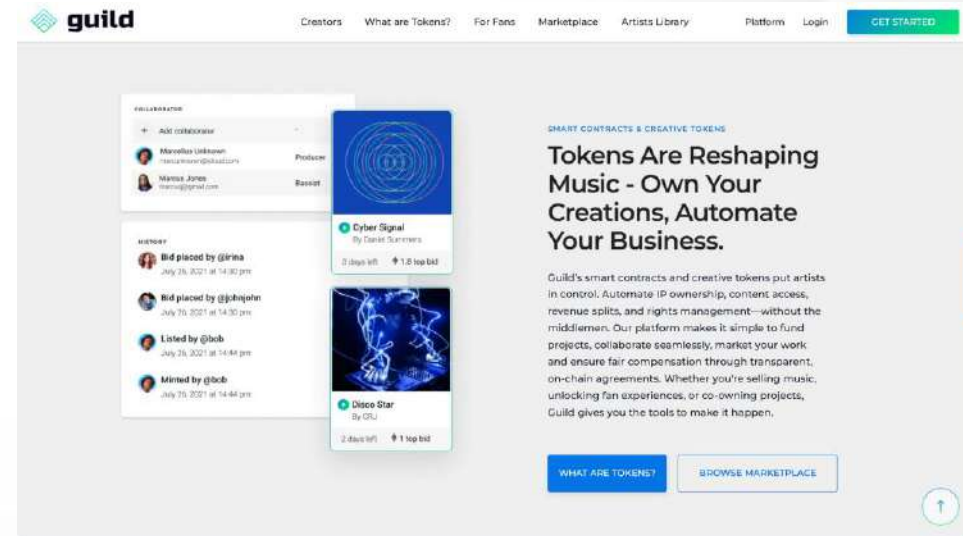

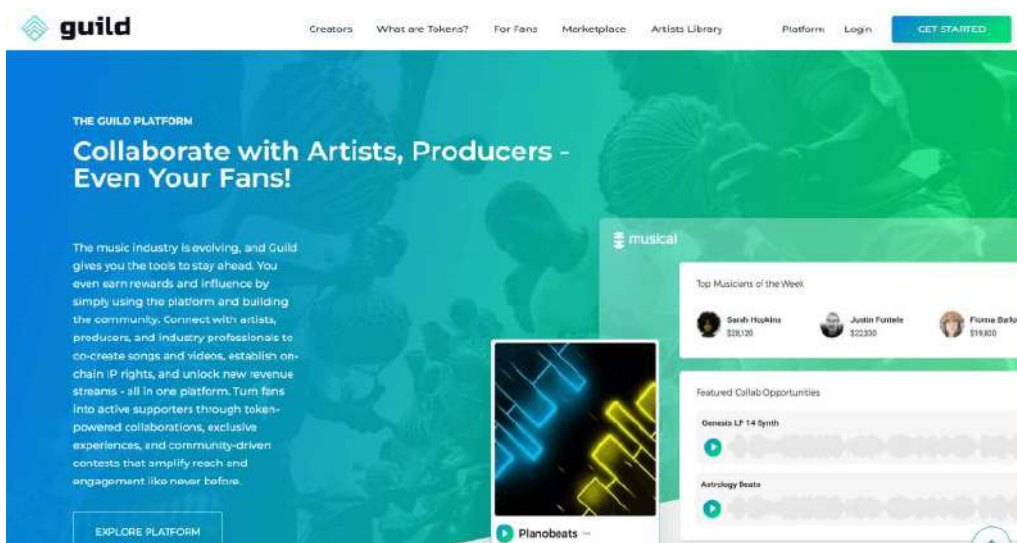

# Results

The result is an attractive, innovative and easy-to-use website. It just takes a simple registration to be able to access the features of the Guild platform.
