## **Success Case**

Muraski – Maintenance in  
Real Estate Management System

# Problem

Real estate company Muraski Imóveis needed to improve the interfaces of an existing real estate management system, aiming at better usability and simplification of navigation, in order to improve the productivity of brokers.

# Solution

Visionnaire has set up a development team to perform the evolving maintenance requested by the client.

# Results

The requested evolutions were delivered, resulting in better productivity of brokers.
