

VISIONNAIRE

Success Case

Telemont – Allocation with Possibility of
Insourcing of IT Professionals

Problem

Telemont's need to have professionals in the Information Technology (IT) area who, in addition to knowledge and technical competence with the PHP language, also fit in culturally with the company.

TELEMONT
ENGENHARIA DE TELECOMUNICAÇÕES S.A

Solution

Visionnaire, through a joint effort between the technical team and the Human Resources area specialized in IT, searched, found and selected candidates for the opportunity, who were forwarded for interviews at Telemont. Those approved were hired by Visionnaire to work on Telemont projects.

Results

Visionnaire conducted specific selection processes for such opportunities and, with agility, assertiveness and cultural fit, found the ideal professionals, who were hired by Telemont after a period of outsourcing.
