## **Success Case**

Analysis, Development, and Evolutionary  
Maintenance of an Online Store

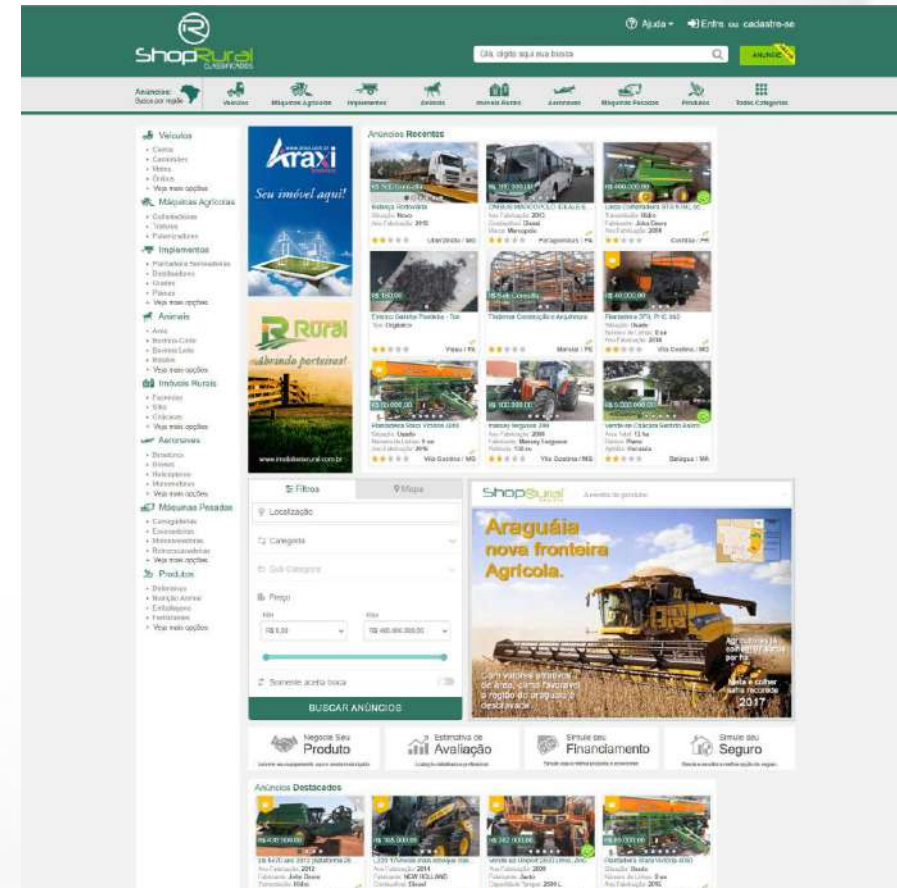

# Problem

Grupo WOS needed a virtual marketplace platform for agricultural listings, including items such as vehicles, machinery (including heavy machinery), implements, animals, rural properties, aircraft, and various products (like animal nutrition, pesticides, packaging, fertilizers, and medicines).

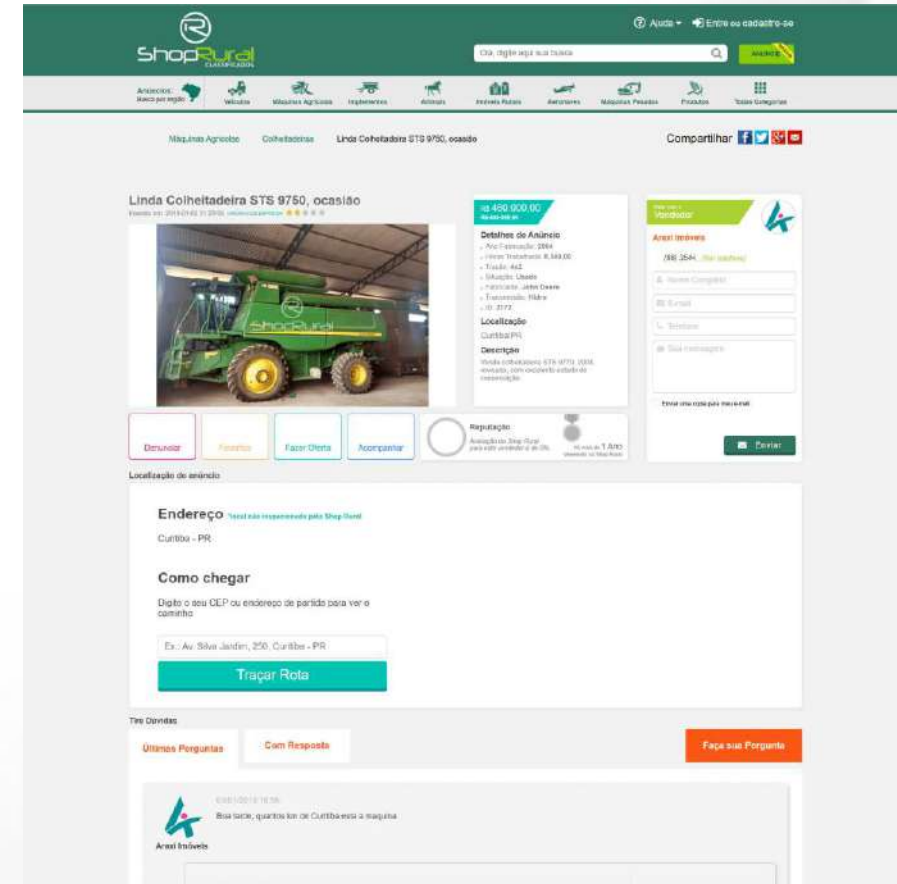

# Solution

Visionnaire handled the analysis, development, and maintenance of the e-commerce platform Shop Rural, resulting in a modern, efficient, and easily maintainable site with ongoing support integrated into the project.

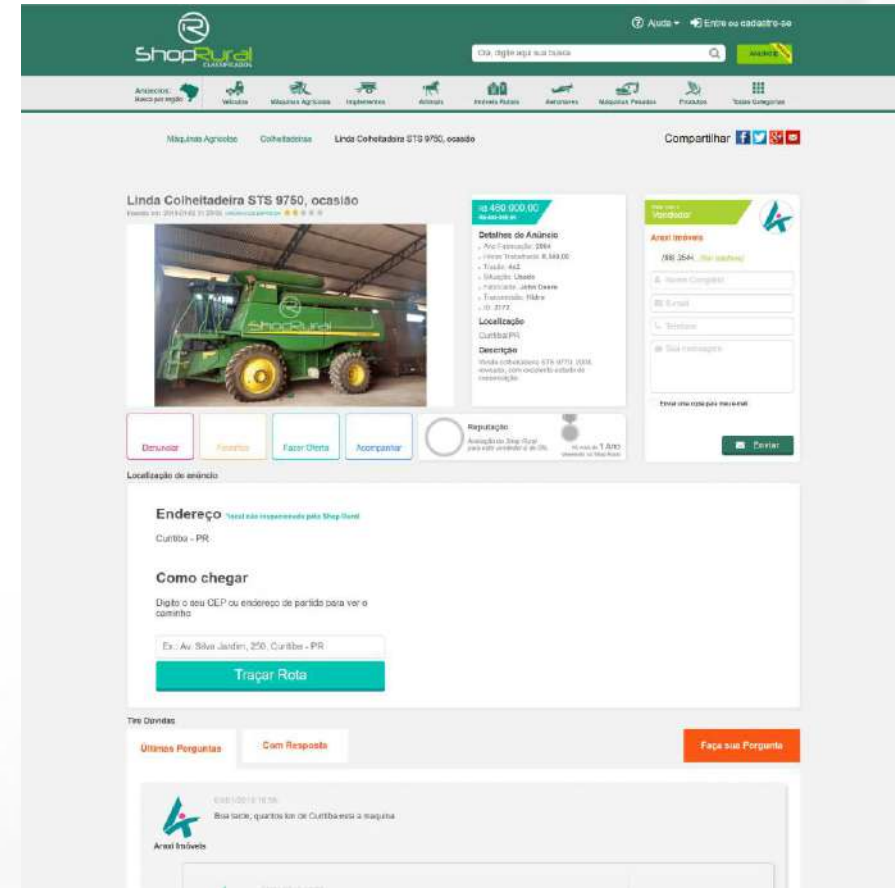

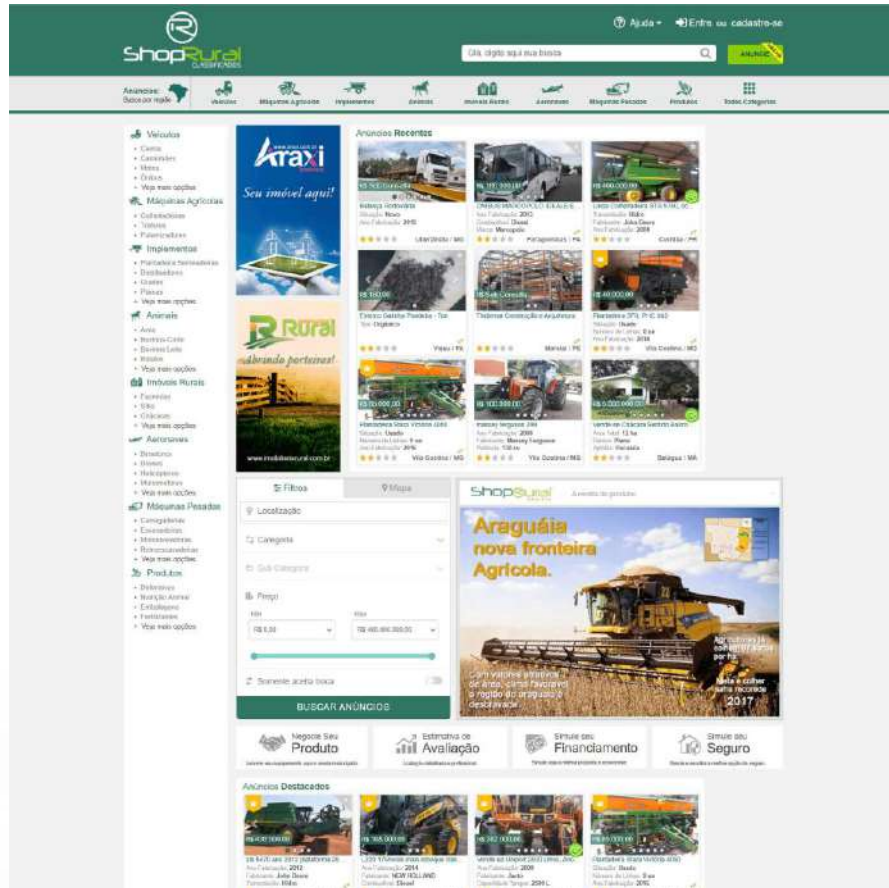

# Results

The result was a well-designed, efficiently developed, and effectively maintained website—an essential foundation for the credibility and success of any business.
